

DRAFT REGULATORY NOTIFICATION CONFIDENTIAL LEGAL DOCUMENT

Reference: RND-TV-2026-05-03-DRAFT

Prepared by: TechVenture Legal and Compliance

Date: May 3, 2026

Status: DRAFT awaiting legal sign-off before submission

Regulatory Body: National Data Protection Authority (INPDP), Tunisia

Subject: Notification of personal data incident CloudAxis platform outage

Filing Deadline: May 15, 2026 (72 hours from confirmed notification on May 2)

Note: This is a DRAFT document and has NOT been filed. Final version requires legal team approval. Deadline is May 15, 2026.

Incident Summary

TechVenture SARL notifies the INPDP of an incident affecting personal data processed through the CloudAxis ERP platform. The incident occurred on April 26, 2026 and was confirmed on April 28, 2026.

Nature of the Incident

An infrastructure migration performed by TechVenture's SaaS provider CloudAxis Solutions SARL without advance notice caused a platform outage and resulted in the confirmed loss of approximately 24 hours of incremental backup data.

Categories of Affected Personal Data

- Payroll records for 214 employees (names, identification numbers, salary data, bank account references) for April 25, 2026
- Customer transaction records for 847 transactions (business entity data, order data, payment reference data)

Note: TechVenture does not believe consumer personal data in the strict sense is affected. Legal counsel is confirming whether Act 63-2004 reporting thresholds are triggered for business-to-business transaction data.

Likely Consequences

- Temporary inaccessibility to payroll data creating payroll processing delays
- Potential for incomplete financial records for April 25
- Reputational and operational risk if customers are affected by incomplete orders

Measures Taken by TechVenture

- Formal breach notice sent to CloudAxis on April 30, 2026
- Incident documented and preserved for regulatory purposes
- Data reconstruction underway with CloudAxis and internal teams
- Legal review of regulatory obligations commenced May 1, 2026

Measures Requested from CloudAxis

- Full technical root cause analysis by May 6, 2026
- Confirmation of data recovery status by May 8, 2026
- ISO 27001 certification status confirmation
- Commitment on future notification procedures

Filing Decision

Legal team to confirm by May 10, 2026 whether formal notification to INPDP is required. Deadline for any required regulatory filing: May 15, 2026.
